

Water Publications Feedback

On the back of every publication Keewatin provides its readers with an email site and a telephone number where we can be contacted. We have saved the email traffic we have received from publication users and it is presented on the following pages, exactly as we received it. We have not withheld any communications because they were uncomplimentary or critical.

We hope this material provides you, the reader, with some insight as to how the public views and receives the material we produce. You can be the judge of the level of satisfaction with our publications from the comments that follow.

2003 Comments

Good morning, I would like to order 12 copies of Water in the Prairie Provinces, Alberta Edition We like to have this kind of information available to our rate payers. Please send to M.D. of Willow Creek No. 26, Box 550, Claresholm, AB T0L 0T0

Hi, I was enjoying your Water in the Prairie Provinces (Alberta Edition) magazine and I noticed it would fit with my Bio 20 program. How much would 70 copies cost. Teacher, Camrose, AB

We would like this booklet for some volunteers, could you ship us 50 copies for now. Ducks Unlimited Canada, 3520 – 114 Ave SE, Calgary, AB, T2Z3V6

Thanks so much for the copies of the *Water in the Prairie Provinces, SK Edition*. I am attaching a brief commentary on how we will be using the resource. Feel free to contact me if you have any questions. We appreciate your cooperation in making this resource available. Director, Sask Correspondence School

“The Saskatchewan Government Correspondence School has been a part of the educational community in this province for over seventy five years. We provide an opportunity for Saskatchewan residents, regardless of location, to access high school courses. Correspondence School teachers guide and support learners to achieve their educational goals. The resource, *Water in the Prairie Provinces, Saskatchewan Edition* is a strong support for learners in the Science 10 course. The content of the material closely corresponds to the Environmental Science unit of the course. The booklet will be sent out to all students registered in Science 10. The booklet will supplement the course information, and we have based several assignment questions on the information.”

I've just acquired a copy of your Manitoba Edition: Water in the Prairie Provinces and I really like it. It is a really well thought out document. I'm a volunteer for the University of Manitoba Engineers Without Borders student chapter and we're organizing a bunch of public displays/activities over the summer in order to promote water awareness. How could I find more

copies as I wish to have some on hand during our presentations. Thanks for your time & Have a nice day. Director of Events, U of M EWB Chapter

Hi, I'm writing on behalf of the Alberta Hunter Education Instructors' Association. We deliver the Hunter Education, Fishing Education, Firearms Safety and Bow Hunter courses for the province of Alberta. We have in hand one copy of your water in the prairie provinces magazine and would like to distribute it to all our students province wide. We wish to order 1000 copies to start with if they could be shipped to our Edmonton office.
AHEIA, #88 4003-98 St, Edmonton, AB T6E 6M8

Hello, I received 5 copies of the CD "Water in the Prairie Provinces" and the printed English version of the accompanying document and I would like to thank you. Is the printed version of the document available in French? Thank you kindly for your assistance. Bibliotechnicienne,
Direction des ressources éducatives françaises

Thank you for all the copies of L'eau dans les provinces des Prairies. This will be an excellent resource for the grade 8 Water Systems unit as well as for the S2 Weather Unit. It could also be used for our new Senior 3 Current Topics in the Sciences course. The translation is well done and the presentation is excellent. I'm sure that our teachers will greatly appreciate this resource. Conseillère pédagogique en sciences de la nature, Bureau de l'éducation française Éducation, Formation professionnelle et Jeunesse, 1181, avenue Portage, Winnipeg (Manitoba) R3G 0T3

I have just finished reading through "Supply, Quality and Use of Water in the Prairie Provinces: Alberta Edition." I am impressed with the quality of the publication and also its relevance to the unit "Fresh and Saltwater Systems" in grade eight science. If this is a complementary publication, I would appreciate receiving a class set of 25 copies. It would be my intention to reuse the set for several years. The school address is: Ecole Coloniale Estates School, 37 Coloniale Way, Beaumont, Alberta, T4X 1M7 Thank you

Kewatin Publications, I wonder if you have copies left of the 38 page booklet "Water in the Prairie Provinces, Alberta Edition". If so, I would like to request 50 copies for use in classes here at Olds College. It makes a good, comprehensive reading assignment (s) that I could loan out, and have returned for use by subsequent classes too. If the copies are already all gone, please advise me of that too.....My Address is; Room 315-D James Murray Building, Olds College, 4500 - 59th Street, Olds, Alberta, T4H 1R6 -----

Further to our telephone conversation, could you please send me 2 boxes (500 copies) of your publication "Water in the Prairie Provinces" (Alberta Edition). These booklets will be handed out at the Brooks Trade Show at our Communities in Bloom booth. Communities in Bloom is a nation-wide organization whose objective is to beautify towns and cities. There are 86 participating communities in Alberta and Brooks has won three consecutive years, in our population category. Brooks' official flower is the petunia which as you are aware is tough and hardy for our prairie gardens. Last year we also encouraged the growing of sunflowers as part of our many projects. This year our theme is water

conservation and your booklet would be a very appropriate handout.
Thank you in advance. Yours truly, Board Member Communities in Bloom,
PO Box 1255, 117 - 2nd St W Brooks AB T1R 0B8 -----

I received today the French version of your publication Water in the Prairie Provinces. Alberta, Saskatchewan and Manitoba editions. The CD is very impressive. The translator that I recommended to you did a great job. My help was very minimal, but I was pleased to be of assistance in getting it produced. I have forwarded the CD to our Social Studies Consultant, Resource Evaluation. I am also letting them know about the possibility of downloading the publication from you web site at www.keewatin.ca, Manager, Translation Services, Official Minority Language Office, Government Department, Regina

Brightwater School, Saskatoon copy water in prairie provinces

I would be very interested in accepting 250 copies of Water in the Prairie Provinces - Alberta Edition, to hand out at my conference on May 7, at U of A (Edmonton Biology). Thank you! Cheers Principal, Mount Royal School, 11303 - 55 Street, EDMONTON AB T5W 3P6

Grade 8 teacher, 42 Cimarron Trail, Okatoks, AB T1S 2A8 Please send 90 copies for our grade 8 classes. It's a great help in teaching this subject to our students. Thanks.

I recently became acquainted with your publication entitled "Supply, Quality and Use of Water in the Prarie Provinces." and am requesting 20 copies of each of the three provincial editions. As a long time water resources investigator and manager I am impressed with the content and presentation of the document. I am involved in the Manitoba Envirothon program (a high school science initiative focusing on natural resources themes and issues) and am co-chair of the Canon Envirothon (the North Amercian Envirothon championship) being hosted in Manitoba in 2006. I wish to use your publication as a key reference for the water component of the program. North/South Consultants, 83 Scurfield Boulevard, Winnipeg, Manitoba, R3Y 1G4

Wondering if you may ship 100 copies of: Supply, Quality and Use of Water in the Prairie Provinces. The address to ship to is: Chair, Sask Conservation Districts Assoc, Box 505, Rose Valley, SK S0E 1M0. (306)322-2222 mcmer@sasktel.net The information is going to be sent to 100 different District Conservation offices across the province. Thanks for your time and hope you have a great day! PFRA Saskatoon, (306)975-4693

Our school has recently become part of the Fish In Schools Initiative and a lone copy of Water in the Prairie Provinces, Alberta Edition was

put in the teacher resource kit. There are probably 15 other resources in the package and we are most impressed with the lay out, content and scholarly presentation of the information in the above named booklet. While there is a place for coloring books in the world, this resource is very engaging, brings forward the issues while still being reader friendly. Would you please include 30 copies of the Alberta edition, 3 copies of the Saskatchewan and Manitoba ones as well. Our mailing address is 2415 Kelwood Drive SW, Calgary Alberta, T3E 3Z8 Thanks very much. Assistant Principal, Glendale School

I wanted to let you know that of the last 250 booklets we had, 110 went to the Business Link, 20 to the Alberta Urban Municipalities Association and 120 to the NAIT Water and Wastewater Technician program. In case you're keeping track. Have a great day! Manager, Communications & Policy, Alberta Chambers of Commerce, 1808, 10025 -102 A Avenue, EDMONTON, AB T5J 2Z2, (780) 425-4180, ext. 6, www.abchamber.ca

I just spoke to you on the phone regarding getting copies of your publication: "Water in the Prairie Provinces". I am teaching grade 10 science and this fits perfectly into our Water Unit that we begin next week. I have two class which total 51 students. If it would be possible to get that 52 copies that would be greatly appreciated; I will be able to reuse them in for future classes. Delisle Composite School, Box 250, Delisle, SK, S7J 2E6

Thanks you very much for sending me the brochure outlining the publication of the Water Series. How can I obtain a hard copy of each publication in the series? Regards, Associate Professor Department of Geography The University of Western Ontario, London, On N6A 5C2

Madam, Sir, I would like to know if the folowing document "The wonder of water" is available in French? If available, I would appreciate receiving a copy at the following address : Direction des ressources éducatives françaises, 200, avenue de la Cathédrale, local 0140, Saint-Boniface (Manitoba) R2H 0H7. Thank you kindly for your assistance! Secrétaire administrative, Direction des ressources éducatives françaises, 200, avenue de la Cathédrale, local 0140, Saint-Boniface MB R2H 0H7

Your pamphlets arrived in time and were packed into the delegates' bags. They were very well received. We certainly didn't find any lying around! Many thanks for your support. Alberta Science Teachers Convention –

Hi; I intend to use the "Water in the Prairie Provinces" publication in a third year College of Agriculture class, AB E 309 Water management. The class will be focused in agriculture and the use of and sustainability of our water resource in this economy but I want the students to also have a larger perspective. I would like to have 100 copies of the Saskatchewan edition so that I can hand out a copy for each student to use as a resource, in particular to connect to the organizations and web sites listed on the back. I also would like at least one copy of the Manitoba and the Alberta edition for my file. Lastly , I am interested if you or if you have any recommendations of others who would be interested in giving a guest lecture presentation? Thanks for the help. Agricultural and Bioresource Engineering, University of Saskatchewan, 57 Campus Drive, Saskatoon, Sask S7N 5A9

Walter, Thanks for sending multiple copies of Water In the Prairie Provinces (Alberta edition). Really appreciate the way the story is told. I could distribute more copies of the Alberta edition, if you wanted to send same (20 copies). Would also appreciate receiving 1 copy each of Saskatchewan and Manitoba editions (if they are separate)

as a resource for my writing / teaching endeavours. Also, do you have anything similar with regard to British Columbia? Pincher Creek

I wanted to give you an update on the distribution of the booklets to date. I had received 1000 and the first box of 250 has been distributed. The feedback has been positive, people are very enthusiastic about any information on water they can get their hands on! I have not been keeping track of hard and fast numbers but here is an overview. 1. NSWA Public Open Houses (general public and NSWA members and interested individuals) September 9 - Rocky Mountain House, September 11 - Elk Point (grade 3 and junior high classes also in attendance), and October 2nd - Sherwood Park (at Millenium Place, a very busy multi-use recreation centre). Totals in attendance at these estimated at 350 +. 2. Alberta Environment Partnerships Workshop - September 16-17 - Red Deer. 3. Alberta Lake Management Society Annual Meeting - September 26-27 - Pigeon Lake. 4. Lac la Nonne Stewardship Group Meeting - September 29 - Lac la Nonne. 5. Alberta Ingenuity Watershed Conference - October 14-15 - Calgary. 6. I have also sent copies to Marjorie Lewis, Mountains as Water Towers Conference - Banff to add to those you had given her for delegate packages. 7. Strathcona County Environmental Operations office - Sherwood Park. 8. Mail out to Iron Creek Watershed Improvement Society - Sedgewick. I will continue to distribute at every available opportunity and keep you posted - Cheers,

Thanks you for your message. Would you please have the boxes shipped to Louis St Laurent School in Edmonton as his students are going to do the bag packing for the conference. The school address is 112-30 43 Ave Edmonton T6J0X8 Many thanks.

:I would be delighted to receive the full range of documents that you suggest. Director, Science Policy and Strategy

Could you send me one copy of "Supply, Quality and Use of Water in the Prairie Provinces"? Thank you Box 92, Pincher Creek, AB TOK 1W0
www.agri-ville.com/spiritualvignettes

we have recently received the Water in the Provinces Magazine and found it to be filled with excellent articles. I was wondering if we could have 9 more copies to distribute to our Watershed Steering Committee. Thank You, Community Environmental Services Technician, Lakeland County, Box 1679, Lac La Biche, AB, T0A 2C0

Hello,Just became aware of your publication - I think it is great! Please mail me three copies of each of the Alberta, Saskatchewan and Manitoba editions. I am interested in the initiatives in the other Prairie Provinces. I also have several colleagues that I would like to pass your publication on to. Senior Environmental Engineer, Waste Management Branch, City of Edmonton.

I talked with ----- and she is getting me a copy of the Saskatchewan edition of Water in the Prairie Provinces but she doesn't have any editions of the Alberta or Manitoba ones left. I was wondering if you had these or knew where I could get them from. Once again my address is:Saskatoon, Sk S7N 3Y6 Thanks again for your help

We are a Conservation District located in southern Manitoba. We would really appreciate getting 100 copies of your information supplement, Manitoba Edition of Water in the Prairie Provinces. Our address is: Pembina Valley Conservation District, Box 659, Manitou, MB R0G 1G0 If there is a charge for this, or you need more information, please contact us. Thank you, Pembina Valley Conservation District

Could I get several copies of the Manitoba and and Sask Water for the Prairie Provinces documents. I am also wondering about wether there will be an Alberta document produced and when.Thanks much, Resource Specialist, Ducks Unlimited Canada, 9615-105 St. Grande Prairie, AB T8V 6V5

Saskatchewan Learning is pleased to distribute sample copies of the publication *Water in the Prairie Province, Saskatchewan Edition*. Teachers are encouraged to acquire additional copies for classroom use. Director, Science and Technology Unit, Saskatchewan Learning.

As the school year draws to a close, I just wanted to send a note to Express our thanks for the complimentary copies of Water in the Prairie Provinces you provided for our teachers. Teachers are always seeking new and up to date resources to help them in their classroom instruction. This topic is often used as a theme in itself or as part of a theme in various intergrated disciplines. Our teachers felt it was very useful for them as all had requested a copy for their classroom! I've been assured that it will become part of their collection used in the delivery of programs to children. It would be great if we could get a copy in French to better serve our French Immersion teachers and students! Thank you for your efforts in support of our students! Sincerely, Principal

I am requesting 100 copies of the Saskatchewan Edition of Water in the Prairie Provinces, or more if we can have them. I plan to include these booklets in information packages we provide to shoreline residents. Coordinator, Nature Saskatchewan, Sask Natural History Society

Francis Elementary school would like to order 22 additional copies of Water in the Prairie Provinces. Francis Elementary School P.O. Box 14 FRANCIS, SK S0G 1V0
Thanks _____

I would like to order 30 copies of "Water in the Prairie Provinces, Saskatchewan Edition" for my school. I am under the assumption that they are free of charge. Please send them to: Principal, St. Mary School, 500 Grandview St. W.Moose Jaw, Sask. S6H 5W3

Pease note that I would like to use the supplement Water in the prairie provinces in my grade 10 science class. It has a lot of great information. Please send 18 copies to; Muenster School, Box 160, Muenster Sask. S0K 2Y0 Thank you very much. Teacher (grade 10)

Could you please send us 25 more copies of the *Water in the Prairie Provinces, Saskatchewan Edition* for use in our classrooms. Thank you, secretary
Laird Elementary School, Box 90, Laird, SK S0K 2H0

Thank you for the copies of *Water in the Prairie Provinces Saskatchewan Edition*. We do a unit in water quality in our Science 10 and would love to have a class set (30) of this publication. I would be willing to pick these up at a Saskatoon location to save on postage. Thank you. Walter Murray Collegiate, 1905 Preston Ave, Saskatoon, SK S7J 2E7

I am interested in obtaining a copy of the Alberta Edition of "Water in the Prairie Provinces." Is it currently available, and what is the cost? Please reply to: Assistant Librarian
Environmental Law Centre

I would like to have a copy for my classroom if at all possible. This is something my class is really interested in. Thank you, Box 666, Kindersley, SK. S0L 1S0

I would like more information on how to obtain additional copies of the above noted resource. What is the cost of obtaining multiple copies? Principal, St. Joseph's School
Lloydminster, AB

We would appreciate three (3) copies of each of the following. Please send to: Cut Knife High School, Box 430, Cut Knife, SK S0M 0N0

We received your sample copy of the above publication. Could you please advise the cost for each copy? Thank you. Secretary, Massey School. Regina

Please forward ten copies of the Saskatchewan Edition "Supply, Quality and use of WAtEr in the Prairie Provinces." to Town of Battleford, Box 40, Battleford, SK S0M 0E0 Thanks, Administrator

Hi Walter -Just received your water brochure in the mail today. It looks fantastic. Thank you for including me on the brochure distribution, I will keep my ear to the ground for opportunities to distribute it. Kind regards.

The Teachers of the Canora Junior Elementary School would appreciate receiving more of your magazines. We received a few and found them to be very informative and useful in the classroom. We are a Kindergarten to Grade Four school - with 183 students. Thank you.

Thank you very much for 30 copies of your booklet *Supply, "Quality and Use of Water in the Prairie Provinces Manitoba Edition"* as requested. We intend to use the booklet as part of the water section of our Senior 4 advanced placement biology class with each of the student having a copy, like a textbook, for this year. We would use the additional copies for each of our senior 1 teachers so they can have up-to-date Manitoba relevant information for teaching the Senior 1 ecology section. Water is a major topic with my

classes. We have constructed a pond and spend time evaluating water quality at Oak Hammock Marsh and Little Lake, an oxbow lake of the Red River that has been recognized by the World Wildlife fund. I am involved with the Red River Basin Institute and would like some additional copies, if possible, that I can share with committe member from North Dakota and Minnisota. Science Department Head, Lord Selkirk Regional Comprehensive High School

Do you have copies of the Manitoba edition of this book available? I would like to get 25 copies for my classroom. Island Lakes Community School
445 Island Shore Blvd., Winnipeg Mb. R3X 2B4

Would it be possible to receive more copies of this review for our office?
Honourable Jean Friesen, Room 301, Legislative Building, 450 Broadway
Winnipeg, Manitoba, R3C 0V8

Please send 35 copies of the free publication titled "Water in the Prairie Provinces, Manitoba Edition" Recently our school received a copy of this publication. Our science teacher in charge of science and biology classes for our S1 (Grade 9) to S4 (Grade 12)students thought it was a wonderful resource and asked me to obtain a class set that could be shared between these classes. I also wanted some extra copies for our library files for our students who want environment information. Treherne Collegiate Library, Box 269, Treherne, MB R0G 2V0

Hello, I would like to obtain a copy of the "Water in the Prairie Provinces" publication. I understand that the Manitoba edition is now available. Could you please send me a copy or let me know how to obtain one?
Thank you. Manager, Earth Observation, Government Related Iniatives Program, Space Technologies, Canadian Space Agency, 6767 Route de l'Aéroport, St-Hubert, Québec J3Y 8Y9,

Hi, Your publication is timely, indeed. I expect you will be at the Water conf. in S'tn on Thurs. Unfortunately, I'll be on my way to visit granddaughters, but I'm hoping Geoff will attend. We are hoping for between 40-50 participants in the Sept. conference. Some will not pick up copies of your publication. Barry, if there are extras, can you use them? If not, perhaps one or two of the U of R profs on our board will. Was there anything else you needed to know? I assume they'll be sent to your home address. Cheers.

I am interested in receiving information about the Water in the Prairie Provinces publications. I understand that there is one for each Alberta, Saskatchewan, and Manitoba. I would appreciate any info on when the publications will be completed and how to order them. Thank you,
Lethbridge, Alberta

Please send me a free copy of the Water publication. I enjoyed "Climate Change Saskatchewan" very much. On another note, the Saskatchewan Outdoor and Environmental Education Association is co-hosting a Conference in Lumsden in September 2003. (I have coordinated many SOEEA Conference during the past 30 years.) Since I live in the area, I am leading a tour at this Conference. Do you have a travelling display booth or would you provide copies of these publications for participants in their registration package? I can link you to the Conference planners. Tx

Please send two copies of each *Water in the Prairie Provinces* publication covering Alberta, Saskatchewan and Manitoba as these become available. Please indicate how I might order a larger number of copies. Many thanks, Department of Economics, University of Calgary, 2500 University Drive NW, CALGARY AB T2N 1N4

Hello, I would be pleased to receive the Manitoba, Saskatchewan & Alberta editions of the above publication. Send to the address below. Thank you.
Watershed Planner (BSc, MSc), Watershed & Aquifer Planning Branch
Saskatchewan Watershed Authority, Box 3003, Prince Albert, Saskatchewan
S6V 6G1

Greetings, Your publication "Supply, Quality, and Use of Water in the Prairie Provinces, Manitoba Edition" is excellent! Water Quality Research Co-ordinator/
Water Quality Unit/ PFRA, Agriculture and Agri-Food Canada

Congratulations on a great publication! I received my copy in the mail this past week and was very impressed. The format is great, and the information balanced. I would love to have a few more copies for our office and was wondering if 10 would be too many to ask for - some for select giveaways when our members seek information, and some to keep in the office for loaning. Please advise, and if possible, send to the address below. Thanks. Looking forward to the SK and AB versions! Manager, North Saskatchewan Watershed Alliance, 6th Floor Century Place, 9803 - 102A Avenue, Edmonton, AB T5J 3A3

Dear Walter,
I collected the message that you left on Friday and have reviewed your publication. I like it. I would like to take you up on your offer to have some of these for reference and distribution. The second speaker in our Making Waves event (you can read about him at www.waterwisdom.ca) will be presenting on Tuesday (March 4th) and there is probably not enough time to have them for then but perhaps we can make them available on the 18th, when the 3rd speaker is presenting. You can send them to our postal address: Water Wisdom Inc. 737 Home St. Winnipeg, MB R3E 2C5 Thanks very much

Hello Walter,
Al has asked me to send you some information on our conference coming up on March 20, 2003. As Al mentioned to you, we think that your publication is really good and we hope that we can make the Saskatchewan edition available at our conference on March 20 in Saskatoon. We are looking forward to working together with you on the Saskatchewan edition in any way we can. We are interested in knowing what it would cost to have the SAC Inc. logo on the Saskatchewan version of your publication? Let Al or myself know if there is an arrangement that we could make with you. Saskatchewan Agrivision Corporation Inc. 502 - 45th Street West, Saskatoon, SK S7L 6H2

Hello I recently viewed an electronic copy of the publication and must say it looks fabulous!

Communications Coordinator, Partners FOR the Saskatchewan River Basin, Saskatoon, SK (306) 665-6887 www.saskriverbasin.ca

Walter,

Please provide our office with the 1000 copies of this publication that you had advised would be set aside for us. Any questions, please let me know. Thanks for a really great publication, all our district staff are impressed and feel it will help them in their work. Executive Assistant, Manitoba Conservation Districts Association, 308 River Avenue West, Dauphin, MB R7N 0J9

Walter

We are very interested in displaying your above publication. I work with Prairie Farm Rehabilitation Administration in the Rural Water Program. We tour Manitoba schools in our district and lecture about Groundwater and surface water. Usually, we will go to approximately 4 or 5 schools with 3 or 4 classes per session. I recently read the above pamphlet at the MWWA seminar in Brandon and thought that it would be idea for our school lectures. We would require approximately 600 copies for this year. We start our tours on Feb 27, 2003. I would like to thank you in advance for your cooperation. Shipping instructions: PFRA-Beausejour District Office, Bag 2000, Beausejour, MB R0E 0C0

Hello Walter:

On the whole, it is an excellent publication....our department will distribute it to all schools in Manitoba...

Science Consultant, Conseiller pedagogique, sciences de la terre
Curriculum Unit, Program Development Branch, Manitoba Education
W240 - 1970 Ness Avenue, Winnipeg MB R3J 0Y9

Thank-you for your kind offer. The Eco M.A.F.I.A. student group would very much appreciate copies of Water In the Prairie Provinces. Our address is: 515 Portage Ave. Winnipeg MB R3B 2E9 Sincerely, EcoM.A.F.I.A. Coordinator

Hello,

We would appreciate receiving complimentary copies of your publication for our internal library. Thanks for your generous offer. Executive Director, Manitoba Chapter
Canadian Parks & Wilderness Society (CPAWS) P.O. Box 344, Winnipeg, MB, R3C 2H6

To Whom it May Concern,

Your publication looks very interesting and extremely timely. We would like to receive 150 copies of this publication for our program. This would be good reference material for many of our Environmental Science students and faculty. Would you please send them to the address indicated below. Thank you for bringing this to our attention. Environmental Science Program, 231 Machray Hall, University of Manitoba Winnipeg MB R3T 2N2

What a beautiful document. Visually impressive - congrats to your design team! I read snippets of text and I can tell there is a lot I will learn from my copy!
As we had discussed a while ago, I will place copies in the Alice Chambers Memorial Library of the Manitoba Eco-Network. And I can also distribute at workshops and conferences, as well as through the networks of my Steering Committee.
I would like 100 copies. You way want to contact Water Wisdom, <http://www.waterwisdom.ca>. They are having a speaker's series on water.

Hi Folks!

Well done brochure - could we receive 150 copies for our Municipality and community groups?
Thanks, Marsha I. Sheppard, ECOMatters Inc., WB Lewis Business Centre
Box 430, 24 Aberdeen Ave., Pinawa, Manitoba, Canada R0E 1L0

Hi Walter.

Your Manitoba prairie water publications is very impressive.
Dave. Professor of Geography, Research Coordinator Prairie Adaptation Research Collaborative, 150 - 10 Research Drive, University of Regina, Regina, SK, S4S 7J7

And oops, the odd miss, sometimes deserved!
